Comments on draft NIE 11-6-59.

1. Appendix D, page 11 -- First sentence on page. Suggest that this sentence should be rephrased to read as follows for accuracy of statement: "Even here, these practices are limited insofar as perfection of technique and equipment is concerned." This sentence now reads, Even here, these practices are in the experimental stage.
2. Appendix D, page 11 -- 3rd line -- The phrase present five year plan should read "present seven year plan."
3. Appendix D, page 17 -- paragraph 42, line 3 -- Suggest use of the phrase "experimental installations" instead of showpiece installations if accuracy of situation is to be presented. This same correction should be made on page 4 of Conclusions.
4. Appendix D, page 17 -- line 3 of footnote -- Following phrase should read "the next/ logical step" rather than the next logical.
5. Appendix D, page 18 -- paragraph 45, 3rd sentence - typo's -- and automatic piston factory, and automatic bearing line should read "an automatic piston factory, an automatic bearing line."
